

FEDERATION OF TRADITIONAL METAL ROOFING CONTRACTORS

In accordance with Item 6 (ii) of the Constitution, it is a condition of continuing membership that all members of the Federation of Traditional Metal Roofing Contractors shall regularly submit examples of their workmanship, as required, for on-site inspection and assessment by an authorised vetting officer. Such provision of works for assessment is part of the ongoing commitment of the members of the Federation of Traditional Metal Roofing Contractors to maintaining quality standards in the design and installation of traditional fully supported metal roofing in the built environment.

This is to Certify that

Salmon Solutions Ltd

has been vetted as part of the 2022 vetting programme of the
Federation of Traditional Metal Roofing Contractors.

The on-site assessment by the vetting officer has been
confirmed by the Chairman of the FTMRC Vetting Committee as

Excellent

Further assessment of workmanship shall not therefore be required
until the vetting programme for the year

2025
